About our project

Language Voices project is an Erasmus+-funded project aiming to improve and facilitate the access of migrants to second language studies as well as social connections through participation in Language Voices language cafés, which are informal meetings based on voluntariness but also systematically organised. The migrants will gain access to social, informal environments of the resident country and integrate into a community of learners and tutors, which is often a key success factor in establishing a quality life in a new country.

The project will provide:

- 1) a preparatory training, handbook and teaching materials in the form of a “free franchise handbook” so that the multilingual Language Voices concept can be replicated with minimum effort throughout the EU or anywhere else in the world
- 2) A comprehensive material bank with language learning and cultural material and resources and a possibility for online communication and language exchange
- 3) A mobile application to find language exchange events available in the partner countries, and for registering your own language event

Are you a language cafe organiser?

You can register your own language event in the App (time, date, location, languages, etc.) here: admin.languagevoices.eu/login.

After registration your information will show up on the app for those searching for a language event in the area.

The Language Voices app is created for language café organizers as well as language café members looking to attend a language exchange in their region. The language café organizers add information about the language exchange, venue, time, date, information about the languages, materials, tutors, images etc.

You can register your event in the app here. After registration your information will show up on the app for those searching for a language event in the area.

This app makes it easy to find the closest language cafe to you. It is available for Android free of charge.

Access our website to find all the material you need, available in 11 languages (Arabic, Dutch, English, Finnish, French, Italian, Portuguese, Russian, Spanish, Swedish and Turkish) and in 3 levels - Beginner, Intermediate and Advanced. Here you will find all you need to help you teach these languages in language cafés, from fun flashcards to downloadable exercises, all without any fees!
